**THE WEBBER LUMBER & SUPPLY CO.
FITCHBURG — MASS — U.S.A.**

Catalog No. 104

THE WEBBER LUMBER AND SUPPLY CO., FITCHBURG, MASS.

This Plant shows how you get a big stock of all that goes into a house, from cellar to roof at very low prices. Small Dealers cannot compete with this Plant. You should not expect them to. They are entitled to from 15% to 35% more than our prices.

Why We Issue This Catalog

We issue this catalog to show the person interested in Home Building the most complete line of standardized building material obtainable in any one plant in the New England states, and at prices that show a big saving.

You will find this catalog a ready hand book of all the material required with which to build a home—the doors, windows, frames, flooring, paint, hardware, roofing—all the material needed from cellar to shingles.

As far as possible we have shown pictures of the different mouldings, doors, windows, etc. We want to make it as easy as possible for you to select your requirements, in fact the illustrations make ordering as easy as though you were at our plant and actually saw the stock itself.

Our method of handling our ever growing business enables us to keep the cost of lumber and other building material we sell down to the very lowest prices. From forests of the south and west we select the highest quality lumber and from this is manufactured the building material we distribute from our large warehouses at Fitchburg all over New England to a constantly increasing list of customers.

In practically every hamlet, village, town and city in New England we have sold anywhere from a dozen to several score home builders. You will find our goods equally satisfactory.

High quality stock, low prices, speedy, intelligent handling of your orders, this is the service you may expect from the Webber Lumber & Supply Company.

Prices. All prices are f.o.b. Fitchburg, Mass., unless otherwise specified, and subject to change without notice.

5

WEBBER LUMBER & SUPPLY COMPANY
FITCHBURG, MASSACHUSETTS

Webber Lumber & Supply Company

What this Catalog will do for You

Shows how to figure costs.

It shows you the lowest possible price of material. One can sit down with this book, and figure the cost of almost any building. Whether you buy from us or not it posts you on prices so you won't need to pay any more than our prices.

Why Prices are Low and Quality High

Advantages of big production. Rapid turnover.

Naturally in handling the immense quantity and turning over the stock so rapidly it is always new, fresh, clean stock. Producing in such large quantities enables us to produce at a much lower cost, and consequently we are able to sell at a lower price.

Adding Several Profits adds Nothing to Quality

The circle of prices. How we eliminate the middleman.

The way that lumber and building supplies are usually handled is from the saw mill or the manufacturer to the jobber, from the jobber to the retail dealer and from the retail dealer to the consumer. We get around a lot of this. Hence lower prices to you.

Cash with Order means Lower Prices

Those who pay cash get the lowest possible prices. The reasons are obvious.

We pay cash for all our purchases thereby getting the lowest possible prices. Selling for cash saves bookkeeping expense and saves a lot on bad bills. If with our large volume of business we did a credit business we would be doing well if our doubtful accounts amounted to \$25,000 a year, which would mean adding more to our selling price to cover doubtful accounts.

Our responsibility is such that you risk nothing in sending your money with the order, as you will find us financially stronger than many banks. Bradstreet's or Dun's Mercantile Agencies will verify this statement. You can easily know something about us by inquiring at any bank.

The knocker. You will always find the Knocker, just as we have. But every knock has been a boost for us. We don't care for the small minded knocker. Let him continue in his own narrow way. He won't go very far in this progressive world. The progressive man will cut circles all around him.

Our policy has always been to battle with prices, to keep costs down and so enable us to sell at the lowest possible prices. The trouble with the country today is the cost of all commodities. They are too high. Prices are running wild. Sooner or later we may realize it. We co-operate with thrifty persons in trying to stabilize conditions.

If the Webber Lumber & Supply Company does not have some advantage for you then you do not want to do business with them. Remember that we have a large list of satisfied customers, something over 50,000 of them, and they are all our boosters and they tell their friends. That is why we are doing the only business of its kind in this part of the country.

Here Are What Some of Our Customers Say:

These are a few letters picked at random from our files. Letters like them are constantly being received from our customers all over the territory we ship to. They come unsolicited, this shows there is no hesitancy on the part of those who save money and receive good merchandise, acknowledging the fact.

You will likewise save money and find your dealings with us as pleasant and profitable as all our other friends have.

We have built up a tremendous business on just such square dealings as these letters tell about and are justly proud of it. For over twenty years we have been striving to add bigger values to our selling plan, giving our customers a wider selection and better service.

You can select the complete stock for a whole house or a single breakfast nook or other cabinet to place in the house already built. Your order will receive our best attention in either case and the merchandise will be equally as satisfactory. We will appreciate your order for any thing you need, be the order large or small.

Wakefield, Rhode Island

Webber Lumber Co.,
Fitchburg, Mass.

Gentlemen:

It is a great source of satisfaction dealing with a firm whose policy is honesty first. Your letter of Feb. 2nd appealed to me in its fairness and golden rule policies. More power to you. Thanks greatly for your splendid service.

Appreciatively,

Wickford, Rhode Island

Webber Lumber & Supply Co.
Fitchburg, Mass.

Dear Sirs:

Will you please send me by return mail one of your complete catalogs with prices and all particulars.

I have built two houses with material from your plant and am now on the third one, and have had people ask me about prices and material which of course I could not give.

I am going to build a house for myself in the Spring and I think the material will come from the Webber Lumber Company. . . . So if you can send me the information I have asked for it will be a benefit to me as well as your company, as I have found your goods perfectly satisfactory both in price and quality. I remain

Yours very truly,
Carpenter and Builder.

West Swanzey, N. H.

Webber Lumber & Supply Co.,
Fitchburg, Mass.

Dear Sirs:

Enclosed find check for \$24.31 for cabinet and lumber received. Am much pleased with the goods.

Very truly,

Lebanon, N. H.

Webber Lumber & Supply Co.,
Fitchburg, Mass.

Gentlemen:

I wish to thank you for the service which you have shown in my last order.

Yours very truly,

Bloomfield, Vt.

Webber Lumber & Supply Co.,
Fitchburg, Mass.

Dear Sirs:

I enclose check for your bill. I thank you very much for your kindness. I think you saved me about \$50.00 on my job for what I could buy here.

Yours truly,

Lyme, N. H.

Webber Lumber & Supply Co.
Fitchburg, Mass.

Gentlemen:

I have received my windows all right and I am perfectly satisfied. They are just what I wanted. I will send you another order in the Spring as I want some clapboards. Many thanks for being so prompt with my order.

Very truly yours,

Branford, Conn.

Webber Lumber & Supply Co.
Fitchburg, Mass.

Gentlemen:

Am pleased to state the flooring was received here at 8 o'clock, on the morning of the 25th, and by 9 o'clock the carpenters were laying it in place. I appreciate the prompt way in which you handled the business, besides being very much pleased with the quality of the flooring.

Webber Lumber & Supply Co.
Fitchburg, Mass.

Gentlemen:

Please find enclosed Check for \$116.10, balance due on my bill of inside finish which arrived in good shape. I wish to say that I am very much pleased with the care and thought you used in selecting the finish to match the doors so nicely. Everyone who sees it says it is very handsome and I think I can show as good a house as anyone when I get it finished. If you should ever want a testimonial on it to use, I would be only too glad to give it or show the house.

SINGLE FRENCH DOORS

Our Single French Doors are suitable for front doors. More and more this type of door is used for a front door. They are also used as interior doors, connecting dining room and kitchen, library and parlor, and in series are used for filling openings between rooms where formerly were used sliding doors and colonnades. Wherever this type of door is used it creates a homey atmosphere.

Hardware for French Doors shown on page 65

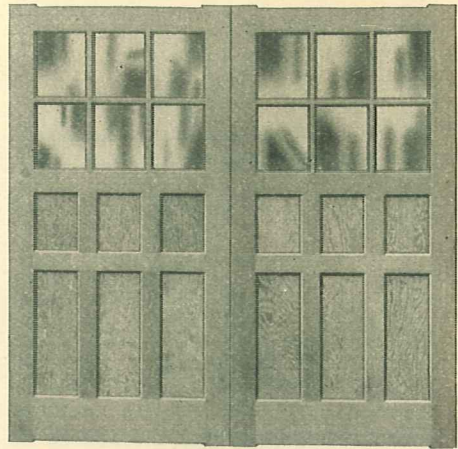

Send us your list of building materials for prices if you are unable to determine the cost from our catalog. We are anxious to serve you in any way we can, and our correspondence department will be glad to answer any inquiry for stock you may need

WEBCO INSIDE DOORS

These doors are made from a careful selection of the best grades of lumber which goes into our large finish and door mill. The most up-to-date machinery is used, which insures a perfect door. The moulding around the panels is clean cut and the corners are put together with absolute accuracy. They are made with rift grain stiles, selected slash grain panels, making a most handsome door. If these doors were not produced in such large quantity it would be impossible to sell them at the low price we do. The two-panel doors are made in the same manner as the Craftsman doors, with 3-ply laminated panels, rotary cut outer surface from selected logs, producing a panel which will not split.

For Lock Sets and Door Butts for these doors, refer to pages 60 to 65.

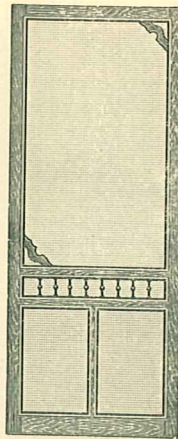

Inside Varnish, per quart, \$.68 Per gallon, \$2.45

INTERCHANGEABLE SCREEN AND SASH DOOR

Size	Unpainted Price
2' 6" x 6' 6", 1 1/8" thick	\$6.15
2' 8" x 6' 8", 1 1/8" thick	6.25
2' 10" x 6' 10", 1 1/8" thick	6.65
3' 0" x 7' 0", 1 1/8" thick	6.95

Price includes Sash and Screen

This is the most economical and most serviceable screen door you can buy. Winter season it serves as a good storm door. In the summer take out the sash and insert in its place a screen, and you have an excellent screen door. Only takes a moment's time to change from screen door to a storm door or from storm door to screen door. You hang the door once only. A sash and a screen are furnished with each door.

SCREEN STOCK—For Making Screens Soft Texture Pine is the Best Wood for Making Window Screens, also Porch Screen Frames.

The full sized drawings on this sheet show our famous Clear Pine Screen Stock. We show you a very convenient way to buy your Screen Stock—all milled—ready to use. Buy Screen Stock with Bead Attached.

Art Sash

COLONIAL SASH

A plain but handsome style of sash, very popular and quite generally used. Both lights are glazed with clear, double strength glass. It admits a flood of clear light which materially adds to the cheerfulness of the room. The price is very reasonable.

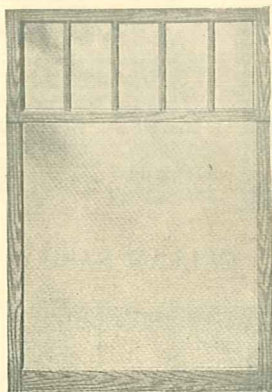

Size	Bottom Light	Top Light	Sash Price	Frame Price
3'8" x 4'9"	40" x 40"	40" x 12"	\$6.25	\$2.75
3'8" x 5'1"	40" x 44"	40" x 12"	7.25	2.85
4'0" x 5'1"	44" x 44"	44" x 12"	8.25	3.05

ROYAL D SASH

This is a strikingly beautiful and very popular sash. The top is glazed with clear, leaded, crystal sheet glass. Our customers who have had this sash are greatly pleased, as the price is much lower than they can buy of others.

Size	Bottom Light	Top Light	Sash Price	Frame Price
3'8" x 4'9"	40" x 40"	40" x 12"	\$11.00	2.75
3'8" x 5'1"	40" x 44"	40" x 12"	12.00	2.85
4'0" x 5'1"	44" x 44"	44" x 12"	13.50	3.05

BUNGALOW SASH

Top contains five vertical lights glazed with plain glass. Bottom glazed one light double strength glass.

BUNGALOW SASH

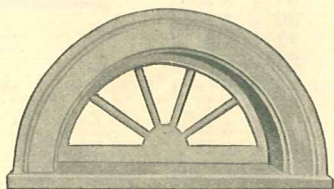

Size	Bottom Light	Top Light	Frame Price
3'8" x 4'9"	40" x 40"	40" x 12"	\$6.50 \$2.75
3'8" x 5'1"	40" x 44"	40" x 12"	7.50 2.85
4'0" x 5'1"	44" x 44"	44" x 12"	8.50 3.05

Frames, with pulleys, 40 cents extra.

NOTE.—Our Art Sash can be furnished, if desired, as double-hung or check-rail windows, made for the lower sash to slide up about 12". The additional cost for this is **\$1.00** per window. Be sure and specify in your order if you want single-sash or check-rail windows.

27" x 26" 2-lts.	5.60
28" x 28" 2-lts.	5.95

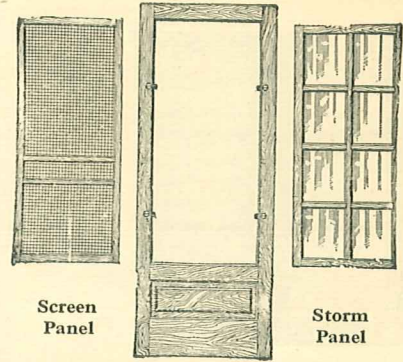

If other sizes are wanted send your list for prices.

Glazed Storm Doors

The quality storm windows, the wood, glass, putty, and workmanship, are of the same high grade found in all our windows. They are glazed, oil primed all ready to hang, and will give complete satisfaction.

For slide lights in 4-light storm sash, add \$1.10 extra, except for sizes marked "S", which are 75c extra.

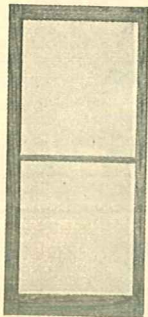

Storm Sash $1\frac{1}{8}$ " thick, glazed with Single Strength Glass.

Interchangeable Screen and Sash

Price Includes Sash and Screen Unpainted

Size	Price
2' 6" x 6' 6", 1 $\frac{1}{8}$ "	\$6.15
2' 8" x 6' 8", 1 $\frac{1}{8}$ "	6.25
2'10" x 6'10", 1 $\frac{1}{8}$ "	6.65
3' 0" x 7' 0", 1 $\frac{1}{8}$ "	6.95

This is the most economical and most serviceable screen door you can buy. Winter season it serves as a good storm door. In the summer take out the sash and insert in its place a screen, and you have an excellent screen door. Only takes a moment's time to change from screen door to a storm door or from storm door to screen door. You hang the door once only. A sash and a screen are furnished with each door.

Window Frames

These window frames are made to fit windows listed in this catalog. They are milled in an exceptionally nice manner. No cutting or sawing is required. Anyone can nail them together in a few minutes. These frames are the regular Boston style frames, shipped knocked down, in bundles; stool, head jamb and head casing shipped in one bundle; side casing and pulley stiles in one bundle. They are plainly marked so that it is impossible to nail them together wrong.

Mouldings, Base, Casings, Etc.

We manufacture our interior mouldings and finish work from the finest Southern Yellow Pine. The workmanship and quality of our interior mouldings is unsurpassed. A great deal of time and effort has been put into the perfecting of machinery to manufacture these mouldings. They are very smoothly finished and clean cut. All mouldings, base, casings, stool cap, surbase, box casing are priced per 100 lineal feet, unless otherwise stated.

Interior Finish

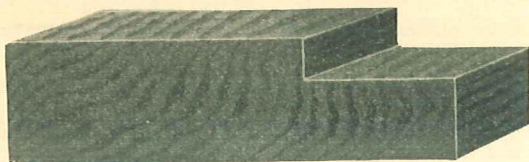

This finish and moulding comes in long lengths from 8 to 16 feet and where we quote price per 100 lineal feet we ship in long lengths not cut up. In selling mouldings by the 100 lineal feet we do not pick out specified lengths but ship an assortment of different lengths which invariably cuts up to good advantage for different sized window and door finishes. On page we also list door and window casing by the complete set for those who wish to purchase them this way. In buying by the set you should always specify the glass size of windows, as we ship casing cut to length.

All finish on this page priced per hundred lineal feet.

Interior Finish

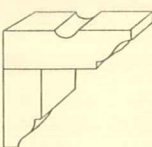

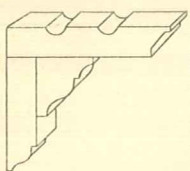

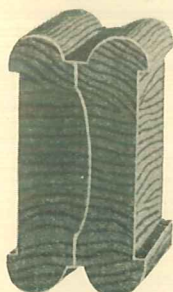

E21 RABBETED DOOR JAMB

These interior Door Jambs are perfectly manufactured, and are straight and true and clear of knots. The sides are cut 7'0" long and the header 3'0". Two sides and a header constitute one set for one door opening.

These jambs are bundled in the knock down, two sets in a bundle, with the face side of the two outside pieces turned in to prevent dust and dirt soiling the face of the jamb.

		Price per Set
	Fir	Yellow Pine

Flooring

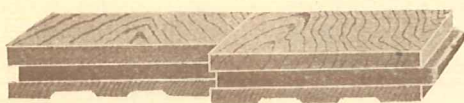

HOW TO ESTIMATE THE AMOUNT OF FLOORING REQUIRED FOR A ROOM

In estimating the amount of flooring required for any given surface, determine the number of square feet you have to cover, thus a room 12 x 12 has 144 square feet. If $3\frac{1}{4}$ " face flooring is required, add $\frac{1}{4}$, or 36 feet; if $2\frac{1}{4}$ " face is wanted, add $\frac{1}{8}$, 48 feet; if the thin 2" face floor is required, add $\frac{1}{2}$, or 72 feet. So you would require 216 feet of thin floor to cover a room 12 x 12, which, of our maple unselected for color, would cost you, for 216 feet, at \$84.00 per thousand, \$18.15. Apply the same method to any surface you may have to cover.

Price on this page per 1000 feet.

THREE DRAWERS \$3.75

Size, 2'8" x 2'8" x 1'6" deep. Drawers are 16" long, 25" wide, and 6" deep. Many uses for these cases in any home—in cupboards, pantries, kitchens, linen-closets, china-closets, etc. You could not buy one at retail—or even make one—for anything like our price.

Made in Yellow Pine.

Will fit opening 2'6" or 2'8" wide.

E167A

FOUR DRAWERS \$4.15

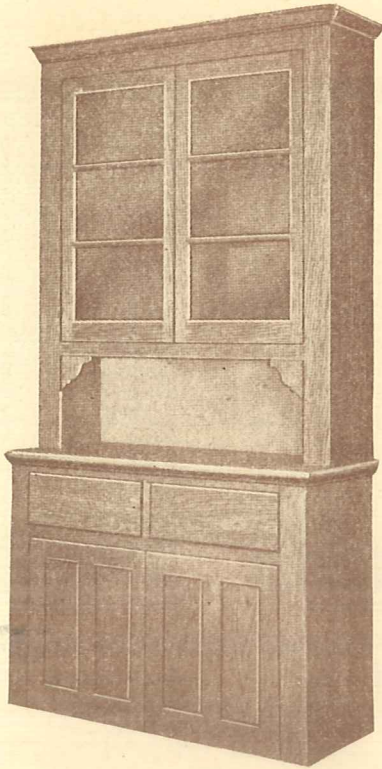

A new and very popular style, of unusual convenience. The dimensions are the same as the three-drawer style, except instead of having one top drawer it has two, each 16" long, 11" wide, and 6" deep. These make excellent drawers for keeping silver or other small articles, and increase the usefulness of the drawer cases.

Made in Yellow Pine.

Will fit opening 2'6" or 2'8" wide.

See page 64 for price on Drawer Pulls, Cupboards Catches and Hinges.

Yellow Pine

Also can be supplied with square fluted columns.

\$19.00

This Colonnade consists of two pedestals and two staved turned columns and plain caps and bases. The pedestals are 29 inches high, 28 inches wide, and 10 inches face. The panels in the pedestals are so arranged in height that ordinary standard width base used in the same rooms can be run around the pedestal and have the work uniform throughout. The columns are 6 inches in diameter at base, 5 inches at the neck, and are built up in such a manner that they can be used for openings from 7 to 8 feet in height, by cutting off the base, which is made of the same diameter for a distance of 22 inches from the bottom up. With the extension of 22 inches on the pedestals, same can be used for openings from 6 feet in width up to 9 feet in width, giving a distance between the pedestals of from 3 to 6 feet.

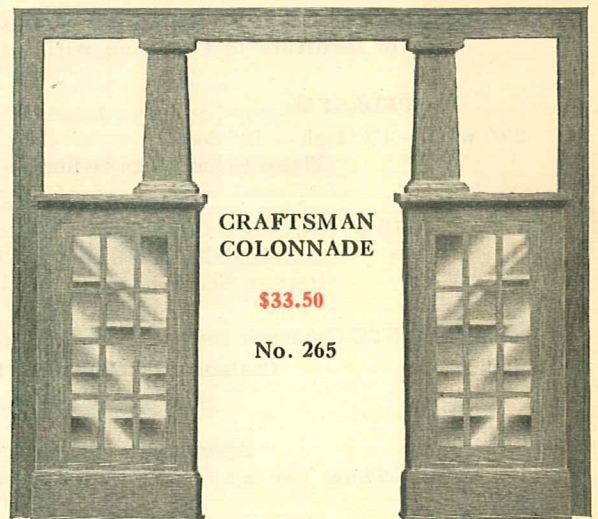

Furnished with plain round caps only

Ironing Board Cabinets

No. A625
(with casings)

No. A600
(without casings)

Made to fit between studs on level with floor line as shown in sketch on other side.

Furnished in Two Styles

No. 625 Complete with casings and All hardware, **READY TO BE INSTALLED**

No. 600 Without casings and door hardware

Rough Wall Opening, 14" wide, 6'8" high, 4" deep
Design and Construction:

Both Main and Sleeve Boards are fitted into the backboard in such a manner that when pulled down into working position, they fit in under the backboard rendering them absolutely rigid.

The Main Board has a surface 4' long by 11 1/2" wide and 1 1/4" thick. (Ordinary Ironing Boards are only 3/4" thick) supported by Nickel Plated Metal Braces, also by Long Continuous Nickel Plated Hinges (similar to those used on pianos).

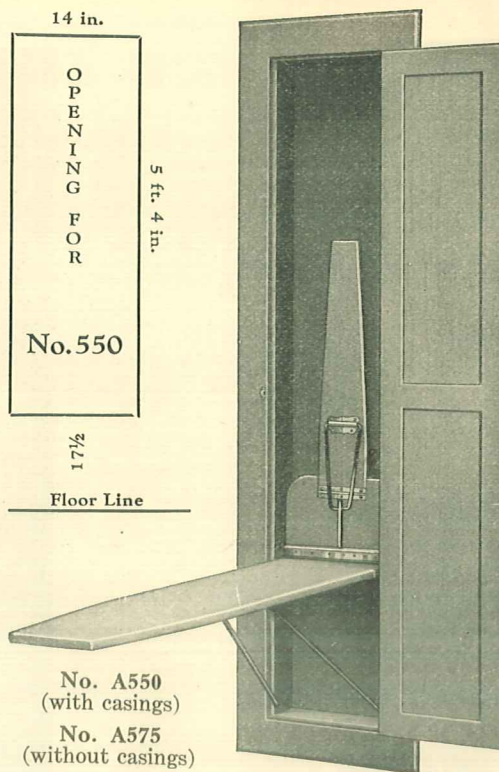

The Sleeve Board has the same rigid construction.

Operation:

Nickel Plated Handle enables a person to pull the Main Board from the cabinet very easily. Automatic Lock Spring holds the Main and Sleeve Boards in cabinet when not in use. Approximate Weight No. 600 — 51 lbs. Each Cabinet. Packed Individually in Dustproof Carton. Approximate Weight No. 625 — 60 lbs. Each Cabinet.

Roofing

WEBCO SPECIAL STRIPS

\$3.80

The Hexagonal Strip Shingle shows a distinctive roof. Makes a better appearing roof than the regular square cut shingles, made from the same weight felt and saturated with the same asphalt and coated with the same slate on the same machines as all our other slate surfaced shingles. A very high quality shingle at a very low price.

Size: 11 1/2 x 36 inches.

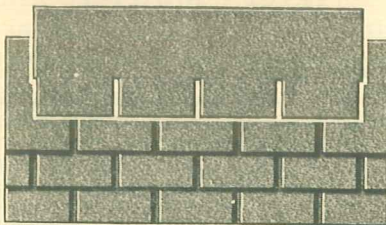

Weight: About 160 lbs. to the square.

Colors: Blue, Black, or Green.

Price, per square **\$3.80**

4 IN 1 STRIP SHINGLES

Heavy Asphalt Black Roof Paint

5 Gallon Lots, per gallon **\$.78**

Single Gallons, per gallon **.88**

This is a very heavy roof coating and will add a lot to the life of any smooth surfaced roof.

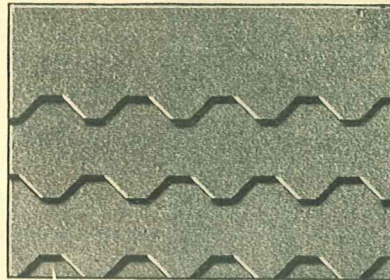

Roof Patching Cement, 5 lbs. per can . . . **\$.72**

Asbestos Fibered Cement will stop leaks and patch your roof. Goes on with a trowel or putty knife.

Also House Paint

SHINGLES IN ROLLS

\$2.95

Color Blend Hexagonal Shingle Roll is a heavy slate surfaced roll roofing cut out in a hexagon style. The strips are 17 inches wide and 48 feet long. Packed in one square roll without nails or cement, no cement needed. Laid 12 1/2 inches to the weather. The combination of colored slate and the cut out on this roll makes a roof have the appearance of being covered with our Hexagonal Shingles, and makes a handsome roof at a low cost.

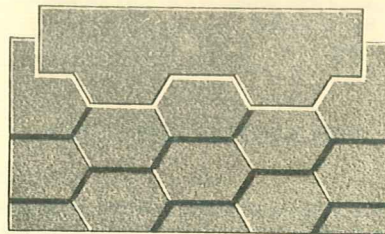

COLOR BLEND

Weight: 100 lbs.

Price, per roll **\$2.95**

PEERLESS COLOR BLEND HEX SHINGLES

\$5.75

The combination of colors adds just that life to a roof that makes it attractive. Each shingle is a color blend. Five different color blends in every bunch, lavender, grey green, mahogany, tan and dark red shades, so inter-mixed that a wonderful color combination is obtained.

Size: 11 x 36 inches.

Weight: About 200 pounds.

Roofing

GRANATILE SLATE SURFACED

\$1.95

roll

Granatile Roofing has been the standard slate surfaced roofing for years. Every roofing user knows the service our Granatile Roofing gives. It is made of the same material as our famous asphalt shingles. Don't confuse this with mill ends or seconds. Granatile Roofing is a first grade roofing and this is the lowest price we have made for years. Furnished in three colors, Blue-black, Green or Red.

Cement and Nails furnished in every roll.

Rolls 36 inches wide.

Weight: 85 to 90 lbs.

Price, per roll **\$1.95**

RED CEDAR SHINGLES

\$4.60 per M

There is a difference in Red Cedar Shingles. We have always had the reputation of putting up a high grade shingle, well manufactured, at a very low price. Our handling as many as we do enables us to put a low price on them. Read these prices.

SUNSET ROOFING

\$2.15 roll

For over twenty years this roofing has upheld its reputation for supreme quality. It is not a cheap roofing but a roofing built to give long service. If you want a long lived roofing buy SUNSET, the real reliable roofing. If the quality were not there we would not be increasing in sales on this wonderful roofing as we are. You can buy a roofing for more money but when it comes to long wearing qualities SUNSET will give you more service for less money. Here is a roofing that will settle your roofing problems for many years to come.

SUNSET ROOFING

Rolls are 36 inches wide, containing 108 square feet, which provides for covering 100 square feet of roof surface allowing 2 inches lap. Roofing nails and cement for laying included in each roll.

Medium Weight, about 45 lbs. per roll	\$2.15
Heavy Weight, about 55 lbs. per roll	2.45
Extra Heavy, about 65 lbs. per roll, ...	2.90

ALASKA ROOFING

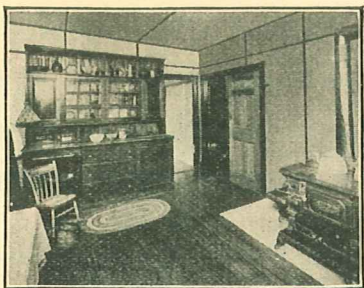

\$.90 roll

If you want a low priced quality roofing—here it is. We do not claim it is as good as our SUNSET ROOFING but will give good service where a cheap roofing is wanted. Used extensively on poultry houses, barns, out sheds, sides of buildings, camps or temporary structures. A good roofing for the price we ask for it. Has good weather resisting qualities. Will outwear many others for which more is claimed and for which you pay a higher price. For real economy on an inexpensive job try ALASKA ROOFING. Rolls are 36 inches wide containing 108 feet, will lay 100 square feet allowing a 2 inch lap. Nails and cement furnished for each roll.

Light Weight, about 35 lbs. to the roll, ...	\$.90
Medium Weight, about 45 lbs. to the roll	1.45
Heavy Weight, about 55 lbs. to the roll	1.75

Inso-Board

INSO-BOARD

Inso-Board is a scientifically prepared and moisture proofed building board, made of the tough strong fibres of wheat straw, which are interlaced and compressed to form a strong and force-resisting material. It is moisture and vermin proofed through special processes. Thorough sterilization removes all soluble food content. The long tough wheat straw fibres, strongly interlaced, give it a greater strength in wall sections than ordinary wood sheathing. It is an excellent sound deadener, being much higher in sound insulation value than the usual deadening felt.

It's Principal Uses are:

1. To replace wood sheathing and at the same time give insulation. To be used as sheathing on frame, stucco, brick and all types of buildings.
2. As sound deadener. **Inso-Board**, in giving heat insulation also gives sound insulation; on floors and walls.
3. As roof and attic insulation. In homes already built a great degree of insulation can be gained by lining the attic or roof with **Inso-Board**. Also used in basements to partition rooms and keep upstairs free of dust and soot.
4. As interior and exterior finish on walls. **Inso-Board** can be used in its natural color (a soft warm golden tan) or can be painted or stained, or decorated to suit taste.

Inso-Board — thickness $\frac{7}{16}$ "

Average weight, 65 lbs. per 100 sq. ft.

Sizes—48" x 4', 8', 9', 10' and 12' Per 1000 ft. **\$45.00**

Inso-Lath is manufactured especially as an insulating plaster base and entirely replaces ordinary wood lath. It is 48" x 18" with long edges shiplapped. It insures perfect walls, free from cracks or unsightly lath marks.

Price on Inso-Lath Per 1000 ft. **\$45.00**

MASONITE INSULATING BOARD

Masonite is made from wood fibre exploded into shreds and pressed into sheets. It's smooth grainless surface on one side makes an ideal surface for interior walls. Used for partitions, ceilings, dividing off basements, putting attics into livable quarters. **Masonite** lends itself to many different methods of decoration. It is used for refrigeration, sheathing up inside garages, and many other uses.

Masonite thickness $\frac{7}{16}$ ". 48" wide.

Lengths 4', 8', 9', 10' and 12'.

Price Per 1000 ft. **\$50.00**

Masonite Lath. This is a wonderful Lath substitute, comes in sheets 2' x 4' long, in bundles, and wrapped in paper with 100 ft. in a bundle. The edges are made shiplap giving a very tight piece of work and can be plastered over just the same as Lath and Plaster, and one gets the value of this warm insulating board for the side walls, and has the benefit of breaking the joints just the same as you would with Lath, and by so doing getting fully as much strength if not more than you would with Lath.

Price Per 1000 ft. **\$50.00**

Masonite Presdwood. A very solid substantial board compressed under tremendous pressure to a solid panel. Used for panels, counter tops, truck bodies, or any place where a panel board is used. The surface is a handsome brown finish. Comes in sheets 48" wide. Lengths 8', 9', 10' and 12'

Price Per 1000 ft. **\$65.00**
Crating \$1.00 per bundle extra.

WEBCO WALL BOARD

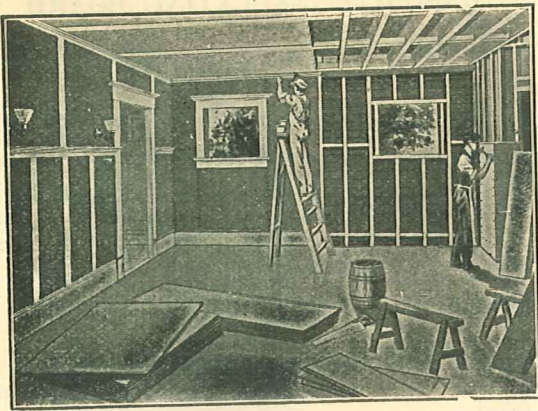

Made for many interior uses where a more expensive insulating board is not required. Very substantial.

Comes in sheets $\frac{3}{16}$ " thick. 32" wide. Lengths 8', 9', 10' and 12'.

Price per 1,000 ft., in 5,000 ft. lots **\$30.00**

Price per 1,000 ft., in less than 5,000 ft lots **\$33.00**

Paratex, Sheet Plaster, Etc.

PARATEX

At last a plaster that cannot crack! Stick! It will stick to anything, stove pipes, glass, wood, all kinds of plaster boards and wall boards.

We especially recommend Paratex to be applied on Inso Board, Masonite, Sheet Plaster and Wall Board.

Paratex can be applied by anybody. Beautiful and pleasing effects can be achieved. As a rough plaster many effects can be produced — a Spanish wall, rough and colorfully tinted — the rough plaster of France — the stippled wall — all can be carried out. Old walls can be made to look like new by a coat of thin Paratex. One pound will cover approximately 9 feet.

This is a plaster, not a paint. Comes in powder form, is mixed with water same as cement for use.

PARATEX

50 lbs. Bag.....	\$.24	per lb.
25 lbs. Bag.....	.25	per lb.
Paraglaze	\$3.75	per gallon
Lemon Ochre.....	.40	per lb.
Chrome Green.....	1.00	" "
Light Red.....	.40	" "
Light Blue.....	.65	" "
Scarlet Sand.....	.45	" "
Blue Sand.....	.45	" "
Green Spa.....	.45	" "

1-lb. sand sufficient for whole room 12 x 14.

1/2-lb. color required for 100 lbs. Paratex

SHEET PLASTER

Plaster made in sheets and papered both sides. Can be papered over, painted or plastered. Joints can be filled with our crack filler and a smooth wall obtained. Used for side walls and ceilings in new construction or repair work. Easier to apply than wood lath, requires less plaster and is much easier to put together.

Comes in sheets 48" — 8', 9', 10' and 12'.

Price per 1000 ft.	\$37.00
16" x 48" — 32" x 48" per 1000 ft.	27.00

Crack Filler: 5 lb. boxes. .48 each

Special prepared plaster in dry form, add water and apply to joints, dries quickly.

Nails — 1 1/4" Coated Nails per 5 lb. pkg. .65

SHEATHING PAPER

Rosin sized, 500 ft. roll	\$1.18	per roll
Kraftex, 500 ft. roll	1.50	per roll

Kraftex is made of two sheets of Kraft paper cemented together with asphalt. A very strong, serviceable building paper.

BLACK ASPHALT SATURATED PAPER

500 ft. roll	\$1.95	per roll
------------------------	--------	----------

SATURATED AND COATED BUILDING PAPER

500 ft. roll	\$2.60	per roll
------------------------	--------	----------

This is Waterproofed by saturation and coating of asphalt. Can be used as a temporary outside covering. Sheds water.

DEADENING FELT. Put up in rolls 38" wide containing 450 ft.

1 lb. Felt, weight about 50 lbs. to the roll	\$3.90	per roll
1 1/2 lb. Felt, weight 75 lbs. to the roll .	5.75	per roll

WECO 7-PLY BUILDING PAPER

This extremely strong, tough, weatherproof, waterproof Building Paper is consistently used by the foremost architects, engineers and contractors for its remarkable protective and insulating qualities.

WECO 7-ply BUILDING PAPER is used under clapboards, shingles, roofing, stucco, brick veneer and between studs in back plastering. Also under floors to keep out dust and dampness and prevent buckling. Temporary sheathing for construction work. Protective covering for cement work, open trenches, building materials etc.

Price per roll, 250 square ft.	\$2.10
Price per roll 500 square ft.	3.75

WECO SAFE-N-DRY

A re-enforced, non-tearable Asphalt Blanket.

Made of 2 heavy kraft sheets with strong woven jute fabric between, the three cemented together with an abundance of asphalt. This forms a single non-tearable sheet of high protective and insulating value. It withstands any amount of rough abuse by man, wind and weather, without affecting its waterproofing qualities.

Price per roll of 250 square ft.	\$3.05	per roll
Price per 1/2 roll of 500 square ft	4.70	per roll

CABOT'S HEAT-INSULATING AND SOUND-DEADENING QUILT

Quilt is shipped in rolls of 84' long. 3' wide contains 250 square feet to each roll.

This is used for insulating the roofs and walls of houses, to make them warm in winter and cool in summer.

Price 250 ft. roll	\$7.00
------------------------------	--------

Galvanized Conductors, etc.

GALVANIZED ROUND CORRUGATED CONDUCTOR

E151

Galvanized Corrugated Conductor is made without cross seam, and being corrugated is stiffer and better than the plain, round pipe, and is easily put together and will not burst when filled with ice, the corrugation allowing the metal to expand, and making it safe from frost and ice. Made and sold only in 10 foot lengths.

Price, in 10 ft. lengths 3" . . . \$.90

HINGED HOOKS

E600

Made especially for holding corrugated conductor.

Price, each . . . \$.15

CORRUGATED ROUND ELBOWS

E246

ELBOW

Price, each
3" \$.30

EAVES TROUGH HANGER

E601

Shows use of the hanger and method of attaching.

These Hangers are made of the best galvanized steel wire together with triple cross bars. Can be easily and

quickly adjusted to the trough, and is the only hanger making a complete brace as well as hanger, and holds trough in shape as well as in place.

Price, per dozen . . . \$.48

SLIP JOINT EAVE TROUGH

E152

One end is fitted with a folded seam, into which the plain end of the other length can easily be slipped, and it locks itself so securely as to make it water tight, thus doing away with the expense and inconvenience of soldering. It is especially adapted for country use where you do not require the services of a tinner.

Slip Joint Eaves Troughs are made in 10 foot lengths without a seam. They come in either right or left hand. Right hand means the water is to be discharged at the right hand end of the trough, and left hand, at the left hand end of the trough.

10' length 3 1/2" . . . \$.80
10' length 4" . . . \$.90

E153

ADJUSTABLE OUTLET

This illustration represents outlet in position. Ends are made plain to slip into folded seam of end cap or eaves trough. No soldering required.
